Curriculum Vitæ

Jinhan Kim

School of Computing
KAIST
Room 2417, E3-1, KAIST
Daejeon, Republic of Korea, 34141

Email: jinhankim@kaist.ac.kr
Website: https://jinhankim.com
Date of birth: January 3 1994
Nationality: Republic of Korea

Current Position

Postdoctoral Researcher, COINSE lab, School of Computing, KAIST

Education

Ph.D. in Computer Science, KAIST, South Korea (March 2017 - February 2023)
Integrated Master and Ph.D. program
Advisor: Dr. Shin Yoo
Committee: Dr. Annibale Panichella, Dr. Moonzoo Kim, Prof. Robert Feldt, Prof. Doo-Hwan Bae
Thesis: Exploiting Mutant's Relationship with Code, Faults, and Patches for Higher Efficacy of Mutation Analysis

B.S. in Computer Science, KAIST, South Korea (March 2012 - February 2017)

Employment and Experience

Postdoctoral Researcher at COINST lab, KAIST (1st March 2023 - 31st August 2023)
Advisor: Dr. Shin Yoo
I am working as a postdoctoral researcher at COINSE lab led by Dr. Shin Yoo.

Visiting Ph.D. Student at USI, Switzerland (3rd August 2022 - 23rd September 2022)
Advisor: Prof. Paolo Tonella
Funding: Young Researchers' Exchange Prorgramme between South Korea and Switzerland 2022
I visited TAU research group at Università della Svizzera italiana (USI) and conducted research on mutation-based deep learning system testing and an empirical study on deep learning program repair.

Frontend Engineer at Tanker Fund Corp., South Korea (April 2016 - February 2019)
I developed an asset management service named Tanker on which users can trade and invest in a variety of financial products online.

Frontend Engineer at Elice Corp., South Korea (September 2015 - June 2016)
I developed an online platform for learning programming and software development called Elice.

Research Intern at Users & Information Lab, KAIST (September 2015 - December 2015)
Advisor: Prof. Alice Oh
I designed a new social back-channel application named EliceQ and deployed in a university classroom where students can ask questions anonymously at any time.

Research Intern at NC Lab, KAIST (March 2015 - August 2015)
Advisor: Prof. Junehwa Song
I researched on a relational norm intervention for behaviour change, mainly developed an application named BeUpright that enabled a two-week human study.

Research Interests

Software engineering, software testing, mutation testing, deep learning system testing, human-computer interaction.

Awards and Honors

- Best Paper Award (2023), 18th International Workshop on Mutation Analysis.
- CoE Ph.D. Dissertation Award (2023): It is awarded to Ph.D. students of the College of Engineering in KAIST who have demonstrated exceptional research capabilities and made notable achievements during their doctoral studies.
- NAVER Ph.D. Fellowship Award (2020): A scholarship awarded to students in School of Computing at KAIST who have demonstrated outstanding research achievements.

Invited Talks

- KCSE 2023 (Korea Conference on Software Engineering 2023), Pyeongchang, South Korea
  Invited paper presentation
  Title: Predictive Mutation Analysis via Natural Language Channel in Source Code
- KCSE 2022 (Korea Conference on Software Engineering 2022), Pyeongchang, South Korea
  Invited paper presentation
  Title: Ahead of Time Mutation Based Fault Localisation using Statistical Inference
- KSC 2019 (Korea Software Congress 2019), Pyeongchang, South Korea
  Invited paper presentation
  Title: Guiding Deep Learning System Testing Using Surprise Adequacy

Patents

- Method for Evaluating Test Fitness of Input Data for Neural Network and Apparatus Thereof, Korea Patent, No. 1020190104591. Published: August 09, 2021.

Academic Services

Program Committee

- Year 2024: ICSE 2024 Demonstrations Track
- Year 2023: Mutation 2023, ASE 2023 NIER Track, ICSME 2023 Artifact Evaluation Track and ROSE Festival
- Year 2022: Mutation 2022, ICST 2022 Poster Track, ICSME 2022 Registered Reports Track, ICSME 2022 Artifact Evaluation Track and ROSE Festival
- Year 2021: Mutation 2021, ICSME 2021 Artifact Evaluation Track
- Year 2020: Mutation 2020

Reviewer

- Year 2023: TSE, TOSEM, Empirical Software Engineering
- Year 2022: TOSEM, Journal of Software: Evolution and Process
- Year 2021: TOSEM, STVR
- Year 2020: IST, JSS

Teaching

Teaching Assistant

- CS101 Introduction to Programming (Fall 2016, Spring 2020, Fall 2020, Spring 2021)
- CS453 Automated Software Testing (Spring 2018, Spring 2019)
- CS454 AI Based Software Engineering (Fall 2021)
- CS489 Computer Ethics and Social Issues (Fall 2019)
